ARTISTS

You get to create a collaboration between traditional and street arts - entirely conceptualised and created by you. We want this St. Paul inspired piece to be original and cool.

Think about it.

Get your instruments/voices ready people... You get the opportunity to compose, work with material already created, or perhaps fuse both - all using St. Paul as your inspiration. How does THAT sound?

MUSICIANS

You can start your piece from scratch, or you could adapt to something already written.

Nonetheless, your ideas will have to incorporate a fusion between traditional, and street. You've been challenged.
